WILDCARD
UNCONFERENCE

RIGA
7.XII

WILDCARD?

Yes! With the motto '**Everyone's invited!**' we're planning to go even further. Now we aim at bringing knowledge sharing authorship to everyone. Not only selected professionals have a right to declare the point of view from the stage, but every attendee is encouraged to actively participate and make the point this time. Why? Because **we are** the IT community.

WHY UNCONFERENCE?

We select this unique format, because it creates the space for peer-to-peer learning, collaboration and creativity. Anybody can submit the talk, and the agenda is created by the attendees themselves. The sessions convened will range from formal to informal: from the well thought out talk reflecting years of practice to the 'new idea' that would be fun to talk about, from the demonstration of a working tool to the white-boarding of something completely new.

WHY SHOULD I?

Because it is good deed. As it will be a FREE-for-ANYONE event, we invite sponsors to help us to make it as nicer as possible. Any help will be appreciated, both in-kind and financial. We target the IT professionals as well as out-of-industry people, especially the students. Make your contribution into the prosperity of Latvia.

WHERE AND WHEN?

On **December 7, 2013**

At **'StartUp Latvia'** Startup School

Radošo industriju kvartālā „Spīķeri"
12/k-1, Maskavas Str., 3 floor,
Rīga, LV-1050
